## BRIEF INTRODUCTION

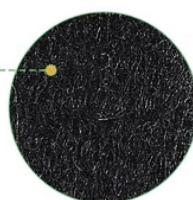

- Made of felt material, environmental-friendly, anti-corrosive, heat resistant, cold resistant, durable to use. Round shape, large capacity, fine workmanship and fashionable design. Perfect for planting vegetables, strawberries, herbs, flowers and so on.
- Double handles of our planting bags could bring you much convenience when you move it. And it also could be folded for easy storage when it isn't in use.
- Reusable, lightweight, economical and practical to use.
- Perfect for using at home balcony, garden or other places.
- Water retaining felt material creates perfect soil condition, used for indoor and outdoor.

Thickened felt, strong, durable and long-life time

More firmly double stitching

Breathable fabric is conducive to the healthy development of plant roots

## AIR-PRUNE

Once the roots reach the edges of the soil or medium, they stop growing, allowing for a strong but distributed root network that doesn't entangle itself, which allows more surface area for mineral and water absorption.
